

Fraud Monitoring Policy

Version 1.0

Effective Date: January 2026

1. Purpose

The purpose of this policy is to define the standards for monitoring customer transactions to detect potential fraud in real time.

2. Scope

This policy applies to all digital banking channels, including:

- Online banking
- Mobile applications
- Card transactions
- ATM withdrawals

3. Monitoring Rules

The system must evaluate transactions using:

- Transaction amount thresholds
- Country risk scoring
- Channel risk scoring
- Customer behavioral patterns

4. Alerts

Alerts must be generated when:

- A transaction exceeds the customer's normal behavior
- A transaction originates from a high-risk country
- Multiple failed login attempts occur within 10 minutes

5. Escalation

High-risk alerts must be reviewed by an analyst within 15 minutes.
